Here when you need us most

Fast phone advice

Our Oral HealthLine is free to use and gives you speedy answers on any dental worries.

Cover for hospital treatment

Some treatments need to be carried out in a hospital, so it's good to know you're covered for this too, up to benefit allowances.

Planned treatments honoured

We cover most pre-existing or pre-planned treatments (apart from those to correct a condition or pre-existing gap).

No wait periods on oral cancer

It's one of the most worrying issues in dental care, so we don't apply a wait period for oral cancer treatment.*

We cover all clinically necessary restorative dental treatment

Up to benefit allowances we'll pay cash back towards treatment recommended by a dental professional to keep your teeth and gums healthy and free from pain.

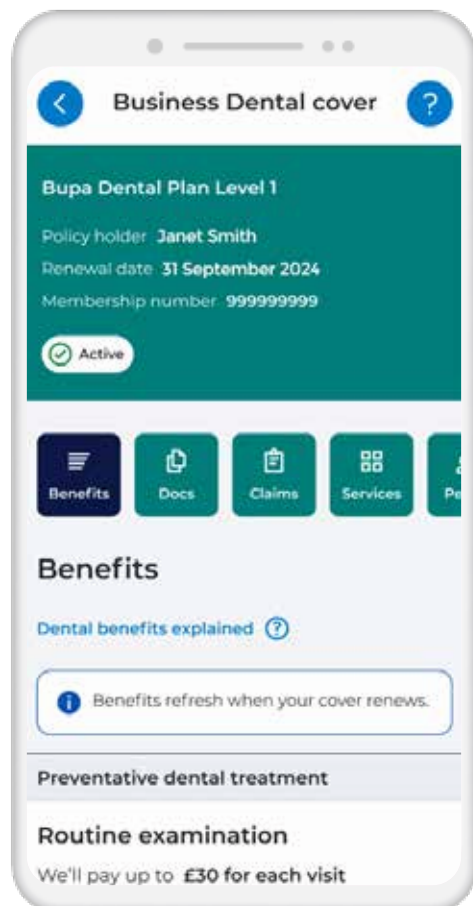

Enhanced restorative benefits

We've increased our restorative benefit allowances for things like fillings. Giving you more for your money.

*We do not cover oral cancer that was diagnosed or for which you had symptoms or investigations before your cover start date. If your group is transferring your dental insurance from another provider to us, we'll provide continuous cover so long as you had dental insurance via the previous provider and your policy covered against oral cancer.
